## Benidorm reports about the opening of a new area of biohealthy elements in Italy street

Benidorm reports about the opening of a new area of biohealthy elements in Italy street.

The Department of Urban Scene of Benidorm City Council informs that tomorrow, Friday, April 12, it will be opened to the public the new area of biohealthy elements of Italy street, located in front of Els Ametlers park, at the intersection with Andalucía Avenue. This area is located on a plot of municipal property of 270 square meters that has been conditioned for five biohealthy elements of waist, bicycle, elliptical, double dorsal and skates equipment. As regards the pavement, the same material used in Els Ametlers Park has been placed.

With this action, developed through the improvements of the second phase of Ametlers Park, biohealthy areas is expanded, which is being carried out in all neighborhoods.
